Frontend Developer skilled in building responsive, high-performance web applications using **React.js**, **Next.js**, **JavaScript**, and the **MERN stack**. Experienced in **dashboard development**, **ticket/ticket-raise systems**, **API integration**, and real-world production workflows. Strong understanding of **REST APIs**, **UI/UX patterns**, **state management**, and **clean component architecture**. Eager to contribute to a fast-paced engineering team with strong **problem-solving**, **debugging**, and **collaborative abilities**.

SKILLS & ABILITIES

- **Frontend:** JavaScript, React.js, Redux, Next.js, TypeScript, Tailwind CSS, Material-UI, HTML, CSS.
- **Backend:** Node.js, Express.js, Python, RESTful APIs.
- **Technologies:** Git, Postman.

EXPERIENCE

Frontend Developer Intern (2 months)

ITG Telematics Pvt Ltd | October 2025 – December 2025

Tech: React.js, Next.js, Tailwind, REST APIs, Redux.

- Integrated **multiple real backend APIs** (ticketing, challans, auth, reports) and optimized UI performance using Tailwind CSS, clean architecture, and component refactoring. Collaborated closely with backend teams for **debugging**, **Postman API testing**, and ensuring smooth data flow across the system.

Frontend Developer Intern (6 months)

JG International | April 2025 – September 2025

Tech: React.js, Next.js, Tailwind, REST APIs, Redux, HTML CSS.

- Improved React performance by 20% using memorization, code splitting, and optimized re-renders. Optimized CSS and UI rendering, improving responsiveness by 15–20%.
- Built reusable React components to improve maintainability and scalability. Implemented lazy loading to enhance page load performance and optimized state management to reduce unnecessary API calls.

PROJECTS

- **LinkedIn Clone** - Developed dynamic and responsive web applications using React.js and integrated real-time features with Firebase, enhancing user engagement and interactivity. Expertise in **React.js**, **Redux**, **Material-UI**, **CSS3**, and **HTML5** for building dynamic, responsive user interfaces. [Link](#)
- **MERN Stack Blog Application** – Developed a full-stack blog web application using **MongoDB**, **Express.js**, **React.js**, and **Node.js**. Implemented user authentication with JWT, CRUD operations for blog posts, and dynamic routing with React Router. Utilized React Context API for state management, improving scalability and maintainability. [Link](#)
